PROJECTS

PRITS | ClickUp, Research

- PRITS is a medical charting app designed to help ease the workload of our Filipino nurses, was a true team effort by O'lanz Studio.

MerchTrack | Django, PostgreSQL

- Designed the UI and developed the frontend of a web application enabling merchandise handlers to input orders and allowing customers to track their merchandise. Also, contributed to integrating the frontend with the database.

Maharlika | Unreal Engine, Jira

- Maharlika is a 2.5D RTS game about a datu on a journey from Borneo to the Philippines, managing resources, and shaping a thriving community.

ORGANIZATIONS

Project SMILE

Lead (January 2024 - Present)

- Currently working on improving the official website of the organization.
- Crafted document proposals for: (1) feedback on the social media analytics of Project SMILE, (2) improvements to the Project SMILE website, and (3) research on untapped platforms.
- Led a team of two in the digital team, conducted regular meetings, sent updates to our external director, and ensured consistent team progress.
- Redesigned the website based on the organization's request.

Officer (June 2023 - December, 2023)

- Managed the social media platforms for Project SMILE and wrote documents providing feedback on social media analytics.

Member (January 2023 - Present)

- Wrote documents providing feedback on social media analytics.

The Ateneo Consortium for Technological, Information, and Computing Sciences (TACTICS)

Treasurer (July 2023 - August 2024)

- Spearheaded the creation of comprehensive budget proposals and budget requests, ensuring alignment with organizational objectives.
- Meticulously prepared liquidation and transparency reports, fostering accountability and financial transparency within TACTICS.
- Demonstrated adeptness in managing accounts, maintaining financial records, and optimizing fiscal resources to support the organization's initiatives.

BITS Creatives Co-head (August 2023 - August 2024)

- Innovatively crafted compelling publication materials to enhance the organization's visibility and engagement and managed the TACTICS's Facebook account, implementing strategic content strategies to amplify online presence and community interaction.
- Collaboratively co-managed the creative team, fostering a culture of creativity, collaboration, and excellence.
- Effectively coordinated with the documentation team to ensure seamless integration of visual and written content across various platforms.
